Erica

Good afternoon, I am just following up on my email from a few weeks ago. My office at EPA, Air Quality Analysis Branch is working with Renu Chakrabarty at the WVDEP surrounding the concerns about Ethylene Oxide and would like to follow up with you on the work your office did in 2018 to explore incidence of certain cancers in Kanawha County, South Charleston and Institute WV. I have attached links to health department reports, as well as the work EPA was involved in in Willowbrook, IL.

I would like to schedule a call with you and Renu to discuss the elevated cancer risk we are seeing near the WV facilities and discuss next steps.

Hope to hear from you soon,

Carol Ann
